

Collapse-A-Bowl

A Smarter Solution

The Collapse-A-Bowl surgical bowl can be used in any procedure where a 6 Litre bowl would be commonly used*.

Holds equipment during set-up and draping process or as part of the sterile field to store sterile packs.

Can be used as a splash bowl, scrub bowl or to receive a large specimen.

Conveniently converts into a waste bag reducing wastage.

System Efficiencies

- Flat packed enabling a more efficient use of your limited storage space.
- Innovative design reduces set-up times before and between cases.
- Design versatility enables it to be used pre, during and post procedures depending upon your clinical need.
- Can be used as a waste receptacle reducing the need for additional waste removal items.
- Can be easily added to Customised Procedure Packs creating additional storage and procedural efficiencies.
- Can be used on any 30, 35 or 38cm bowl stand.

* Not to be used for sharps disposal
